Behind the Scenes

What's it like being a dance teacher? We chat to Miss Hanley from Bounce Dance Academy.

What is your favourite style of dance?
It varies really, it depends on my week and how I feel, but I do love tap, that's always a really fun one to teach. Street dance is always fun, and we can do tricks, but I do love the control and flow of ballet. It's really hard to pick one!

How old were you when you first started dancing?
About four or five – a long time ago!

Did you start out with Bounce Dance Academy?
No I started teaching up in Birmingham when I finished university and then I moved back home and started teaching for Bounce.

How old were you when you started teaching?
I would have been about 22, and I have been teaching now for about 13 years.

How many lessons do you teach a week?
I teach 3 at Trenance Academy, 4 here at Newquay Junior and 2 on Saturday mornings, and then extra when we are rehearsing for shows or practising for exams.

Did you always want to get into the dance industry?
Yes it's something I always loved doing, so I went to university to do dance and then from there I started teaching as well.

What is your favourite thing about teaching dance?
Well, that would have to be you guys, the dancers. You all work so hard every week and it's amazing to watch your progress.

How did you get into the dance industry?
I have been dancing since I was a little girl, probably since I was about four or five and I have just always enjoyed it so I carried it on into adulthood.

FACTS ABOUT BALLET

- ~ Ballet is the most popular type of dance
- ~ In ballet everything has to be perfect; your hair, your leotard, even your shoes.
- ~ Your feet must always be pointed and at no point do you slouch.
- ~ Your arms must be elegant but stiff and your posture has to be perfect.
- ~ Although ballet seems boring and annoying it is fun, calming and relaxing.

WHAT CAN RUN BUT NOT WALK?
WATER

Learn to Dance...

Anyone can dance, just follow these steps, and have fun!

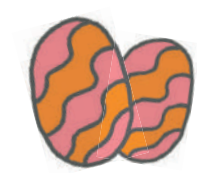

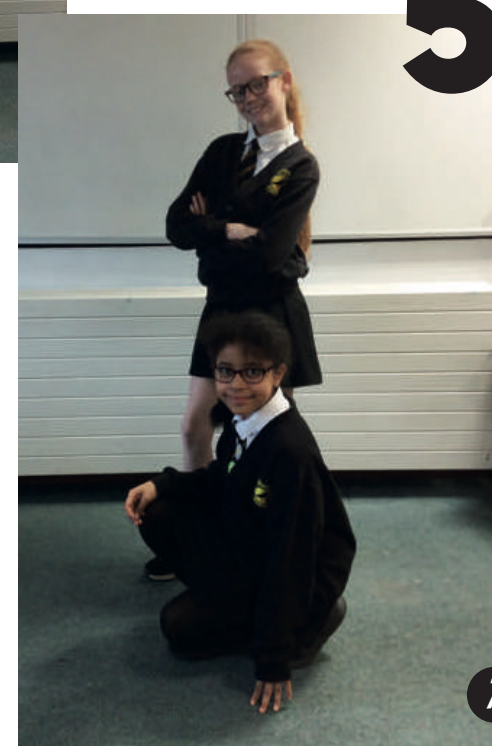

Step 1
First you do 3 steps to your right (in front, behind, in front) then you do a jump and clap.

Step 2
Then you do a three-step turn to your left and a jump and clap.

Step 3
Next you put your right and left hand horizontally in front of you. Then put the backs of your hands together and put them back down.

Step 4
Then you move your head to the right then to the left, put your hands behind your head and push them out in front of you.

Step 5
After that step behind your

SCUBA DIVING

We talk to Padz from Dive Newquay to find out more about the undersea world.

Who's the most important person in Dive Newquay?

We're a team, so everyone is as important as each other. I can't do what I do unless all the instructors teach courses properly and they can't do what they do unless I look after the equipment properly, so there is no one that is most important.

Who is your favourite scuba diver?

A Frenchman called Jacques Cousteau. When I was young, I was obsessed with watching him on the TV. Jacques Cousteau is the person who invented some of the equipment that we still use today. He came up with the parts that you screw into your cylinder and the parts that you breathe through when you're underwater.

Jacques Cousteau

What's the most important fact that you need to learn about scuba diving?

Never hold your breath. When we go underwater, the weight of the water above us affects our lungs. If you hold your breath you can have a nasty accident. There are lots of important things in diving but that's a key one we teach.

What's the best thing you've found or seen while diving?

I've spent a lot of time diving with organisations like the Cornish Wildlife Trust and Natural England. Did you know there are two native species of seahorse in the UK? I've spent hours looking for them - but I've never seen any. The best thing I saw was a pair of octopuses going through the mating ritual. It was incredible. I wish I had a camera on me - but that's always the way. When you take a camera with you, you never see anything interesting!

What are the parts of a scuba diving kit?

There are three main parts of a scuba diving kit. The first one is a cylinder which contains our breathing air. A lot of people think it has oxygen in it, but actually we fill it with the same air we breathe which is 21% oxygen and 79% nitrogen. Then we have the regulator that connects to the cylinder - that we breathe from. And that's all connected to a device that enables us to control our buoyancy. All together they make up the SCUBA kit.

How long have you been diving for?

I started diving in the late 80s, so about 35 years.

“ For me, Cornwall is one of the best places in the world to dive. ”

What is your favourite wreck that you have dived?

You may have seen the bell in the rowing club, that's from a wreck called the Syracuse which is about three miles out in the bay. She was a German coal ship that sunk during the war and we dive it three or four times a week during the summer. She is a very nice little wreck, a lot are broken up on the sea bed but she is very intact. There are lots of wrecks but I prefer the wildlife side of diving really.

Where is the best place to go diving?

That's a matter of opinion really. There are many places in the world that have interesting things to see. You find there tends to be two types of diver, those who prefer warm water and those that are happy to dive in cold water. For me, Cornwall is one of the best places in the world to dive because it has a seasonality that many places don't have. In tropical places, whether it's in the Carribean, or Indonesia or Australia you tend to get the same species sets of corals and fish. But in Cornwall, because we have a varying water temperature, it's just like it is on land, you get the spring where the trees start to bud and summer and winter, and it's the same underwater, different species sets at different times of year. We're lucky to have the Gulf Stream here, which is an area of warm water that comes over from the Mexican gulf and it keeps Cornwall's waters warm. Because of that we are classed as being sub-tropical, so we have lots of species that come into our waters that you don't get anywhere else in the UK - some you don't get anywhere else in the world.

The Syracuse wreck

Did you know?

While sharks kill about 8-12 people each year, coconuts kill on average 150 people each year: BEWARE OF COCONUTS!!

Many people do not refer to diving as a sport but in fact you can burn about 600 calories per hour - the same amount as running for an hour at 5 mph.

The 'inventor' of SCUBA diving was Jacques Cousteau - he is known as the father of SCUBA diving.

Jacques Cousteau

Scuba Rangers

Diving is not just for grown-ups! Flo tells us more about it.

Where do you do scuba diving?

I go to Dive Newquay Academy.

What equipment do you use?

When diving we use fins, a mask, a BCD and an oxygen tank.

Can you go in the sea?

I can't do it now because it is too cold but once it is summer I can.

Do you do gradings?

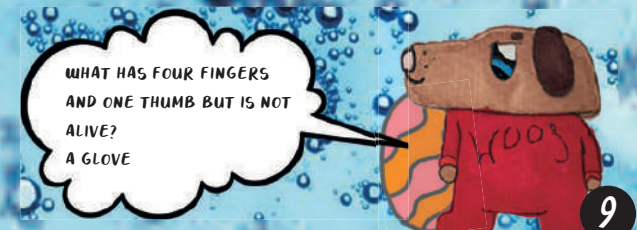

There are 6 grades, then after you complete all of them you go on to learning about wreck diving, cave diving and perfect buoyancy before going in the sea.

What age did you start diving?

I started at age 8.

SPOTLIGHT ON...

Lights, Camera, ACTION! Time for the teacher to answer the questions.

Mrs Dewsnap

How long have you been teaching at Newquay Junior?

I have been teaching here since September 1989. It's the first job I ever went for and it's the only one I've ever had.

Why did you get into teaching?

When I was very little, I wanted to be a coal miner, but they wouldn't let women drive the big machines. Then I wanted to be a vet, but I discovered you needed physics to be a vet, and I am rubbish at that. I had been teaching Sunday school since I was about 10, and then when I was in sixth form I helped out in a local primary school. I taught my first class on my own when I was 16 when a teacher didn't turn up.

Do you enjoy working here?

I love it. I love it because it's in the centre of where I live. My children went here and I just think it's an amazing school.

Who was your least favourite teacher when you were at school?

I had a Geography teacher called Miss Shipham in my secondary school and I remember telling my mum; 'Miss Shipham doesn't like me' My mum told me it was probably because I didn't smile at her!

“ When I was very little, I wanted to be a coal miner ”

If you had to pick a year group to work in, which do you like best?

Well, I've worked in them all. I love the fact that year six children are so grown up and can really access the harder stuff and I love the year threes because they get excited at everything. It's been so long since I last taught year four or year five, so I think that would be harder, but children are children, whatever age they are. I just like working with children.

What is your favourite subject to teach?

I love teaching maths. I love teaching children who don't understand maths and I love teaching children who find maths easy and pushing them. I like teaching music too.

Who's your favourite teacher in this school?

Me! No, every teacher is different and they all have different strengths. Every teacher has something fabulous to offer.

What's a funny memory in Newquay Junior?

I used to have lots of classroom pets. I used to have class rats, class gerbils and lots of guinea pigs. The first hamster I ever had was given to me by another teacher called Mrs Barnes. I picked him up to show the class and it bit me and drew blood. That was the one and only time I have ever sworn in front of a class! Well, one time I went out of the classroom and came back to discover a ball of sawdust moving around in his cage. What had happened was the children were handling him and dropped him in the glue pot. Thinking I'd be cross, they'd put him back in the cage and of course all the sawdust had stuck to him!

What's the weirdest pet you had in class?

At one stage I had somebody come in who actually hatched turkey eggs in his hands - so I had pet turkeys in the class. They lived in a cage, but they used to escape and fly around the classroom, so they went to live on a farm in the end.

Tell us something we don't know about you.

Whilst working here I've run the London Marathon and I've done a parachute jump for charity.

How has Newquay Junior changed since you've worked here?

I've been at school longer than this building has! So, it used to look very different. I used to work in the end classroom and there was a swimming pool attached to the end so on a Friday afternoon if my class were working hard, I would let them jump in the pool.

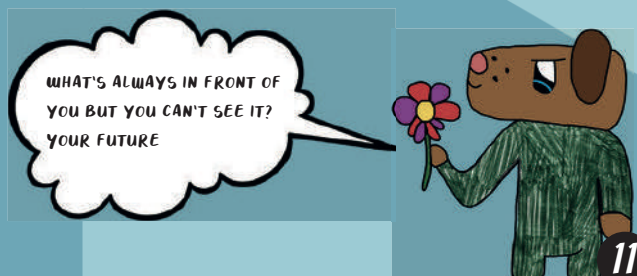

As a teacher, what job skills do you think are most important?

Experience in a bank once, to lose about £100,000 and my skills aren't great so that's probably not a career for me. I don't know, but probably something with people, or children, maybe social services.

“ I worked in a bank once, but I managed to lose about £100,000 so that's probably not a career for me! ”

Do you have a favourite film or book?

My favourite book is called the name of the wind by Patrick Rothfuss. My favourite Christmas film is The Holiday, and normal film would either be The Greatest Showman or Coyote Ugly. It's got to have music in it, because I like going to the theatre to watch musicals.

BASKETBALL

Basketball is really fun to play and easy to learn.

There are tons of skills and tricks to learn, like a crossover, between the legs, behind the back, no bounce, and so many more.

Did you know at the last basketball competition in Newquay against all the schools (in Newquay) Newquay Junior Academy won with pride and teamwork. For the team work we shouted to each other to say we were free or to pass to us.

FACT

Basketball was originally played with a different ball. The game was initially played with a typical football and peach baskets for nets.

FACT

Interestingly, the game was way shorter; it comprised of two fifteen-minute halves with a 5-minute break in between.

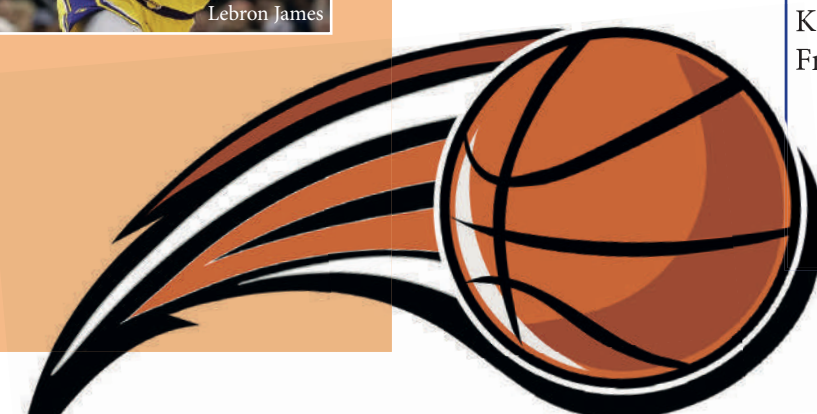

Isiah Thomas

Lebron James

Another interesting fact is that dribbling was not allowed. Players were never allowed to advance the ball; they had to throw it over without moving.

A HICCUP

SWIMMING

What's it really like competing in swimming events?

FAMOUS GIRL SWIMMERS

Stephanie Millward
Federica Pellegrini
Dara Torres
Summer Sanders
Kaitlin Sandeno
Freya Anderson

LUCY

What swimming club do you go to?

Newquay Cormorants

How long have you done swimming club for?

Just over a year

When you started swimming club what was your favourite thing?

I actually didn't like it, I felt stressed.

What was the first stroke you learnt?

Front Crawl

How many swimming competitions have you been to?

Four

How often do you do competitions now?

About once a month.

How many medals have you won?

Three

What did you win your medals for?

Individual Medley (bronze), Butterfly (silver) and Freestyle (GOLD!)

What is the worst thing about swimming competitions?

If I am at a competition and I have no friends to talk to.

What's a funny thing that happened to you while you were swimming?

When I was doing breaststroke and my coach was yelling at me to glide and I thought he told me to fly!

DID YOU KNOW?

- ~ Swimmers use every major muscle in their bodies
- ~ The first goggles were made from tortoise shells
- ~ The water in an Olympic size pool equals 9400 baths

Books Books Books

We chat to Newquay librarian Sheree Gouws, and review your favourite books.

Do you prefer fiction or non-fiction?

It depends how I'm feeling, if I feel like learning about something I do quite enjoy a non-fiction, but if I feel like going on an adventure or disappearing into a book I like fiction.

What is your favourite thing to read about?

Non-fiction I really enjoy health, and art books. For fiction books, I like a romance.

What is your favourite book?

Adults by Emma-Jane Unsworth.

What is your favourite movie based on a book?

Harry Potter and the Philosopher's Stone. It's a good book and good movie too.

Who is the best author you have in your library?

I think everyone would have their own answer to that, but mine in the adult section would be Emma-Jane Unsworth. For kids I would have to say Ruth's book Sixteen Sizes Smaller! It's really lovely, I really enjoyed it.

Do you get a lot of visitors in the library?

We get loads! Our biggest day was Halloween last year, we had over 1000 visitors that day. We had queues out of the door because we had lots of things going on like storytime and face-painting.

Can anyone come in the library?

Everyone is welcome in the library, we promote it as a warm, safe space so even if you don't want to read, you are welcome to come and do jigsaws or colouring or just sit. We also have space upstairs which is quiet, for studying.

What is the most popular book for primary age?

Some of the most popular books are the Tom Gates series by Liz Pichon, and Captain Underpants by Dav Pilkey.

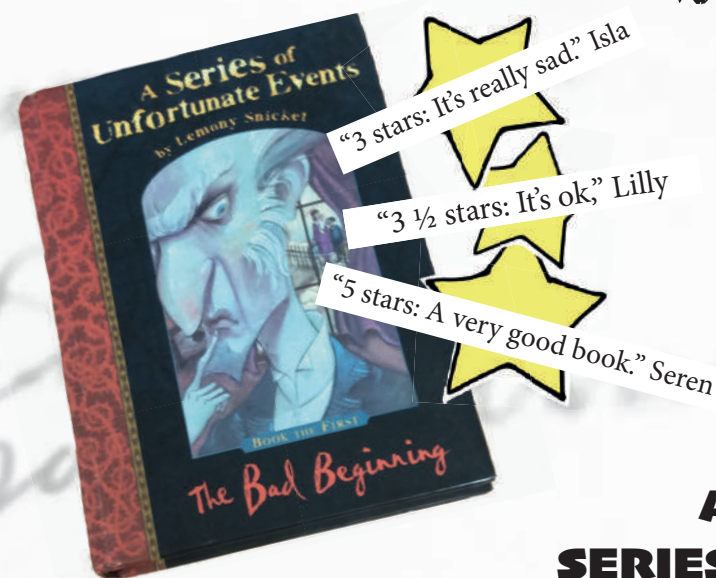

How long have you been in working the library for?

About eight months, I and I really love it.

What Got Your Vote?

We asked 50 of you which book is your favourite - here are the results:

- Diary of a Wimpy Kid.....**23**
- Gangsta Granny.....**22**
- Billionaire Boy.....**3**
- Mr Stink.....**2**

A SERIES OF UNFORTUNATE EVENTS

by Lemony Snicket

Dear Reader,

I'm sorry to say that the book you are holding in your hands is extremely unpleasant. It tells an unhappy tale about three very unlucky children. Even though they are charming and clever, the Baudelaire siblings lead lives filled with misery and woe. From the very first page of this book when the children are at the beach and receive terrible news, continuing on through the entire story, disaster lurks at their heels. One might say they are magnets for misfortune.

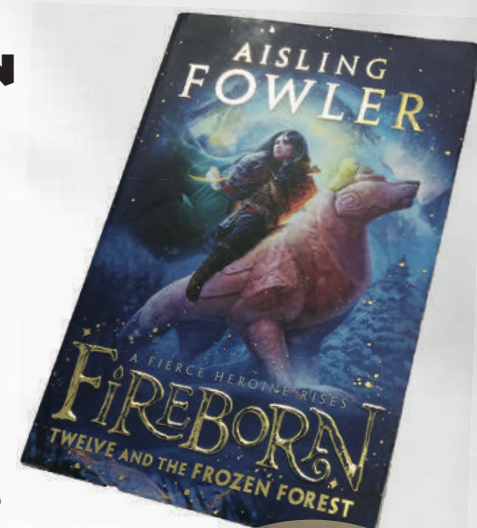

Lemony Snicket

Reader Review
"It involves lots of mystery, adventure and thrills so overall it is a very good book."
Seren.

FIREBORN

by Aisling Fowler

Twelve has given up her name to train in the art of fighting monsters, and she won't choose a new one until she has earned it. But when her friend is taken, Twelve sets off on a dangerous journey to rescue her. Teaming up with Dog, the Stone Guardian of the Hunting Lodge, Twelve embarks on an epic adventure that will change her life, her name - and her entire world.

Reader Review

"I like the characters, because they all have different personalities."
Petra.

AMAZING ANIMALS

An A to Z of Pet names

Can you think of any others?

We love animals, they're so lovely. But sadly, many are endangered. Here we find out which are the 10 most endangered animals in the world.

1. Javan Rhinos – only 75 individuals left
2. Amur Leopard – only 100 individuals left
3. Sunda Island Tiger – around 600 left
4. Mountain Gorillas – 1000 wild individuals
5. Tapanuli Orangutan – fewer than 800 exist
6. Yangtze Finless Porpoise - around 1000 left
7. Black Rhinos – around 5630 left
8. African Forest Elephant – numbers unknown as they are too shy.
9. Sumatran Orangutan – less than 14,000
10. Hawksbill Turtles – between 20,000 – 23,000 left

Easter Time

Easter is here! Get busy making our cute basket to keep your eggs in, try our quiz, and have fun colouring in.

Easy Easter Basket

1. Draw five 9cm x 9cm squares in a cross shape as shown and a 20cm x 1cm rectangle.
2. Accurately cut them out.
3. Fold all the sides down into the middle. Fold them back up and then using sellotape stick all the sides together.
4. Using sellotape stick the rectangle to opposite sides of your basket.
5. Decorate your basket however you like! We have used coloured

(and of course fill with Easter

Hi, I'm Ed the Egg!
What's your favourite thing about Easter?

1. Who provides the voice for Peter Rabbit in the 2018 animated film?
A. Chocolate
B. Toffee
2. In Harry Potter what are Molly Weasley's Easter eggs filled with?
A. Mars bar
B. Snickers
C. Milky way
3. What is the nation's favourite chocolate bar?
A. Mars bar
B. Snickers
C. Milky way
4. What date is Easter?
A. 12 April
B. 20 April
C. Easter changes every year

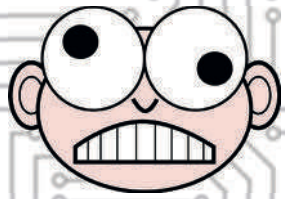

QUIZ

5. What is the most used ingredient in chocolate?
A. Sugar
B. Cocoa
C. Milk
6. What type of bun do we traditionally eat?
A. Hot Cross Bun
B. Hot Upset Bun
C. Hot Angry Bun
7. In what story does a rabbit carry a pocket watch and say "I'm late!"
A. Peter Pan
B. Peter Rabbit
C. Alice In Wonderland

A. Mrs Patterson
B. Mr Slater
C. Mrs Band |

How to...

Draw a beautiful fairy scene.

STEP ONE: The background and mushroom house

1] Draw hills and two place holders for where the fairies will go (whatever size you want).

2] Next draw the stem (two curved lines) and an oval for the bottom of the mushroom.

3] Then draw curved lines inside the mushroom and straight lines for a ladder.

4] Draw the mushroom top and windows in it. Draw a door above the ladder.

6] Add the fairies to your mushroom picture. We've added fairy Woof inside the top window too.

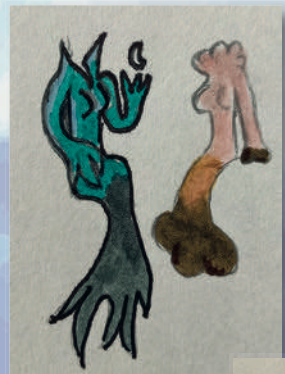

DONE!

STEP TWO: Now for the fairies...

1] Start with the body and curve down for the beginning of the skirt.

2] For the Moon fairy, continue from the torso to make a spiky skirt. For the Cloud fairy draw lumps at the bottom for a skirt.

3] For Moon, draw two lines with three spiky fingers. For Cloud draw two lines with three lumps on the end.

4] Shade the faces but do not colour them in. For Moon draw long spiky hair, for Cloud draw short, puffy hair.

5] Draw wings on each fairy as shown, and a moon or cloud under them.

Buzz Short Stories

A Wild One's Eyes By Scarlet

Twenty years ago, in Newquay, lived a young girl called Crystal. Sadly, her mother and father died, so she lived with her uncle, who hated her.

A long time ago, in a mystical land, lived a creature of wildness and beauty

'What happened to you?' she whispered. Surprisingly Wild spoke and told Crystal what happened. He told her that her conscious was stuck in her dreams.

Crystal spent most of her time in her bedroom playing with her favourite toy, a pink and purple wolf she called 'Wild'. Every night Crystal dreamed about Wild in a mystical land where Crystal and Wild went on amazing adventures.

Eventually, Crystal got used to this land of wonders. She and Wild went on many adventures and made new friends. On one of their adventures they befriended a giant floating jellyfish named Stinger. But some of the adventures were dangerous and deadly. Once on a trip to the lake of wonders they met a pink dinosaur that tried to kill them.

One day, when Crystal went to school she couldn't stop thinking of Wild. So when she got home, Crystal grabbed Wild and ran to the woods. She ran on the trail and found a cave, and she played with Wild for hours.

Then one night when Crystal went to sleep, lightning struck the cave. When she woke up, she was ready for another adventure with Wild but instead of feeling fur, she felt a teddy. Crystal hoped this was a nightmare.

Soon Crystal realised that it was dark, but she couldn't find her way home because she ran too far. She told herself to stay calm and wait until the morning when it's bright. Since she was tired, she went to sleep, clutching Wild in her arms.

The world, it was back to normal.

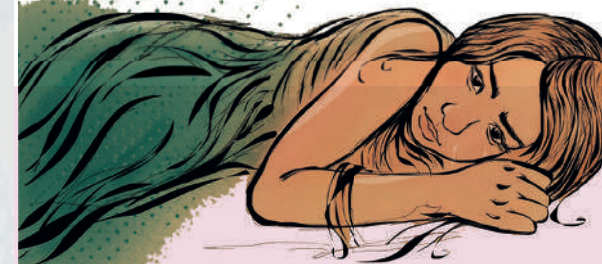

But something magical happened that night. Purple lightning struck the cave. When Crystal woke up, she looked outside and to her surprise the landscape was purple and pink. But Wild was missing. Crystal heard a roar, she looked behind her.

She ran back to the path hoping it was not real, but sadly when she reached the end of the path, she saw her house and school. Tears ran down her face and fell off as she ran back to the cave.

'But, but,' she stuttered. It was Wild – but alive! She was so confused already, Crystal thought of the lightning strike.

She waited for years, eating birds' eggs, deer and rabbits until she was 21 years old. On the night before her 22nd birthday, lightning struck the cave again. When she woke up she was in the same mystical land as before. Wild was back.

So just like before, they went off on their adventures.

Sorrow by Hannah

Once upon a time there was a girl. Wait, that's not enough description. Let me try again. Once upon a time in a village called Charlestown a little girl called Lucy lay beside her mother; her mother who was dead. The clouds hung low, the rain was heavy; her eyes drowned in a pool of water. The funeral was calm – quiet – too quiet. The deafening silence

filled her ears, as the sound of her heart, her broken heart, beated, pumping blood around her body, making her red, fiery, angry. Suddenly in the heat of the moment, a loud high-pitched sound erupted from the mouth of the little girl. In embarrassment she ran, step over step, leap over leap, door through door until she reached her room. Slamming the door behind her, Lucy threw herself on her bed. The most important person in the world was gone – never to return.

ANSWERS:

Where is it: 1. Cosy Corner 2. Music room 3. Carlo in the Chough Kitchen 4. Cosy Corner 5. Canteen bin 6. Reception

About NJA

Funny and weird facts you probably don't know

Philip Schofield was a student here in 1969.

The Muga was a bus station.

Paralympic swimmer Matthew Whorwood came here.

Where Mr Hayes' office is, used to be three classrooms and a computer room.

Editor's Note~

This issue my team from Year 6 took on outside interviews and more detailed research, as well as the whole magazine process; from brainstorming ideas to creating all original content, including amazing artwork and imaginative stories. They worked together and helped each other where needed to produce another superb edition of The NJA Buzz.

Great job everyone, you should be proud. Ruth.

Just before you go...

WE NEED YOUR HELP!

Hi I'm Scarlet and I work with Petra. We help clean up the entire school but every day more rubbish is dropped. So we need you to help clean up. I know what you're thinking, but yes, ALL YEARS are allowed to do this. All you need to do is get gloves from the canteen, and use buckets for your rubbish holders, until it's the end of break/lunch. Then use gloves to scoop it from your bucket to the bin.

Thank you for reading,

Scarlet

PS Our school's the best! Keep it clean!
